1 year to less than 2 years

Work must be completed at the physical location. There is no option to work remotely.

Job Description

Review work orders and discuss work with supervisor

Inspect motor in operation, road test motor vehicle, and test automotive systems and components using computerised diagnostic and other testing devices to diagnose and isolate faults

Adjust, repair or replace parts and components of automotive systems including fuel system, brakes, steering and suspension, engine and drive train, emission control and exhaust, cooling and climate control, and electrical and electronic systems using hand tools and other specialised automotive repair equipment

Test and adjust repaired systems to manufacturer's performance specifications

Perform scheduled maintenance service, such as oil changes, lubrications and tune ups

Advise customers on work performed, general vehicle condition and future repair requirements.
