Job Description

Job Duties

- Measure and fabricate steel siding in accordance with plan specifications for residential and commercial projects.
- Fold and shape steel siding panels and sheet metal to fit building dimensions, corners, openings and architectural details.
- Use hand and power tools to install, maintain and restore steel siding and roofing materials.
- Assist with installing soffits, fascia, trim and fasteners to secure and finish steel siding systems.
- Install and remove roofing materials and prepare roof surfaces for roofing work.
- Inspect installed panels for alignment, secure fastening, proper overlap, weather resistance and a consistent finished appearance, and correct deficiencies as required.
- Set up, inspect and safely use ladders and equipment needed to perform work at heights.
- Maintain and fix tools and equipment, organize materials and keep work areas clear of debris.
- Load, unload and safely transport building materials around job sites.
- Follow applicable workplace safety procedures.

- Complete other related duties as required.

Employment Requirements

Education:

- Completion of high school.

Licensing:

- Fall arrest certification.
- Lift license.
