Job Description

Major Responsibilities

• Responsible for batching and applying (shooting) the shotcrete to the required ground support profile as provided on the Ground Support Instruction.

• Adhere to and maintain all company standards and perform duties to the highest levels of safe operation.

• Ensure all areas to receive shotcrete are clean, sound, and free of loose material, and that anchors, reinforcement, and ground wires are properly placed and spaced

• Set elevations, grades and thicknesses for the shotcrete placement

• Perform proper methods of material preparation and mixing to consistently mix and maintain the required mixture proportions and ratios

• Operate equipment such as mixer and shotcrete sprayer, ensuring hose and pump are cleaned properly, maintained and inspected

• Document reports detailing work performed, log batches, areas sprayed and QA/QC performed (core panels sprayed, cube samples taken, slump measurements…etc)
